FORWARDED.

The Special Officer, has reported that the works under reference may be included in the second quinquennium of P.W.R.D. as there are no works of lesser urgency for deletion. The first five year programme of the State P.W.R.D. plan drawn up for 1947-52 has not been completed and these works are proposed to be continued in the five year period from 1951-56 conforming to the Five year plan of the Planning Commission. Hence the programme of works to be taken up in the second quinquennium of P.W.R.D. has not yet been drawn up. Any new works may have to be taken up only after 1956-57 a it is too early to draw up a programme for such works now itself The Special Officer may be informed that this may be included in the proposals for the second five year plan when next called for.
